

Installation Instructions

1. (Go to step 2 if you used an exe file) Unzip the Zip file using **C:3CM** as the destination as per the screenshot below (create the folder **3CM** if it doesn't exist):

2. Enter the following command with AutoCAD open: **SCRIPT**
In the new dialog box browse to the **C:\3CM\ObjectHide** folder then double left click the **InstallOHide.scr** file.

Troubleshooting

If you don't see the new menu appear then enter the **MENUBAR** command and set the system variable to 1.

If the Object Hide toolbar () fails to appear then Right-Click on AutoCAD's toolbar border and select the **3CM-OBJECTHIDE > 3CM_ObjectHide_Toolbar**:
